TO WHOM IT MAY CONCERN

This is to confirm that Dr Marianne Baasch worked at the St Francis Health Centre as an Independent, professional, registered Homoeopath from October 2008 to 2nd December 2014.

In team work with other consultants she worked every 2nd week and saw our resident guests in an incoming and outgoing consultation. This entailed the explanation of the Bodystats, body compositions, the detoxification diet to the rhythm of the Yin and Yang food and herbal teas, the checking of the medications and supplements the people bring with them and then the prescription of remedies, supplements and suitable diet. Her vast knowledge of the variety of supplements and in particular the allopathic medication people bring with them from all over the world was of great advantage for the putting together of the individual programmes for the guests.

Also her insights of the various diets people come with or are on helped tremendously for the advice of a continued detox and then maintenance diet.

Dr Baasch tested with Kinesiological muscle tests for the suitable remedies, medications or supplements.

Dr Baasch is also a musician. She plays and teaches the cello. Her sensitivity and right brain activity allowed her to find the depth and cause of the effect of not so visible problems. As per the words of Mr Mandela : Quote "The wounds that cannot be seen are more painful than those that can be treated by a doctor" unquote.

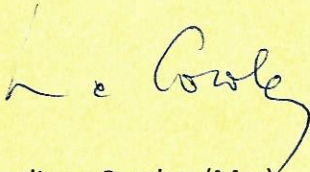

Her fluent German was also very useful and welcome as we have regular German guests coming to us.

2 ...

Dr Baasch is leaving us on her own accord as she is relocating with her family to Cape Town.

We wish her great success and good luck with her new projects in Cape Town.

Sincerely

A handwritten signature in black ink, appearing to read "Anneliese Cowley". The signature is written in a cursive style with a long, sweeping tail on the final letter.

Anneliese Cowley (Mrs)

Director

Have a healthy day!
